# NUTYPESET

27 Prince George's Park, National University of Singapore, Singapore 118425

📞 8888  ✉ [nutypeset@u.nus.edu](mailto:nutypeset@u.nus.edu)

## Education

**MIT**                                                              **Septemter 2020 – June 2024**
*Bachelor of Computting(information security)*                                    *Singapore, Singapore*

### Relevant Coursework

- Data Structures
- Software Methodology
- Algorithms Analysis
- Database Management
- Artificial Intelligence
- Internet Technology
- Systems Programming
- Computer Architecture

## Experience

**Cisco**                                                        **June 2021 – September 2021**
*Software Engineer Intern*                                                        *Singapore, Singapore*

- Developed a crawler to automatically crawl huge number of blogs online for big data analysis.
- Developed a sentiment anaylysis based on NLP for searching.
- Incorporated scripts using Python and PowerShell to aggregate XML test results into an organized format and to load the latest build code onto the hardware, so that daily testing can be performed.
- Implemented Selenium to create an instance of Chrome in order to interact with the correct elements of the web page.

**National University of Singapore**                              **Januanry 2021 – June 2021**
*Student Researcher*                                                             *Singapore, Singapore*
